Richmor RCM-HA7 is an intelligent multimedia integrated vehicle video terminal host launched according to the latest rental/car-hailing industry standards and product application requirements. Mainly include: electronic operation certificate display, video surveillance, GPS/BD satellite positioning, navigation, voice intercom, evaluation, dialing, driver face recognition and attendance, DMS driver driving behavior analysis, swiping card, advertising playback, TTS voice broadcast , SMS text dispatch, phone call, OBD vehicle status display, empty and heavy running status and other functions. The product is highly integrated, equipped with artificial intelligence algorithms, using professional chip solutions, and can be connected to a multi-level management platform. For rental companies, advertising providers, and competent departments

can provide professional targeted data and solutions.

Product Specifications

Product Parameter			
Operating system	Android+LINUX		
CPU	Multi CPU	HIS Dual CPU	
		Dual CPU 1.3G	
LCD display	Screen Size	7"inch TFT true color	
	Resolution	1024*600	
	Angle of view	75 degrees left horizontal, 75 degrees right horizontal Vertical up 70°, vertical down 70°(CR≥10)	
	Touch screen	Capacitive touch screen	
	Contrast	600:1	
	Amount of light	400cd/m²	
	Response time	16ms	
Authentication module	RFID Reading	According to ISO 14443 standard RFID read and write, support Type A card read and write, support TypeB card(second generation ID Card) ID read; Highway yard designated module	Optioanl
Algorithm	AI algorithm	Built-in DMS and face algorithm	
USD interface	USB interface	2*USB interface, can use to upgrade and back up	
Audio interface	Output	Built-in speaker, support TTS voice boardcast	
	Input	Built-in singel channel microphone	
AV	AHD Input	6CH AHD Input	
Buttons	Physical buttons	Video, navigation, home page, call, service evaluation	
Interface			
Vehicle interface	Input/Output	1CH detects ACC switch state input 5CH digital alarm input, 1CH annalog alarm input 1CH speed input,1CH CAN 3ch RS232 ,1CHRS4851	

Company Information

Our Services & Strength

* With over 12 years experience in the Car Networking industry
* Excellent R&D to make ODM/OEM service
* Professional sale team for making best support for you
* Use Unique AI chipset to R&D advanced products
* IAFT16949 certificated Manufacturer, CE.ROHS. E-MARK qualified Products.

Certifications

FAQ

1.Does your MDVR support GPS 3G 4G WIFI?
Yes, our MDVR System can be added into GPS WIFI 3G 4G WIFI module.

2.Does your MDVR System has CE ROHS E-Mark?
Yes, our MDVR System has CE ROHS E-Mark Certifications.

3.Does your Company support OEM or ODM service?
Yes, our company has our own R&D department, and factory , can support OEM & ODM Service.

4. Do you have software to view the data?
Yes, you could have software to get data reports.
