**CMS**

The screenshot displays a CMS (Central Monitoring System) interface. At the top, there are 'File' and 'Video' tabs. The main area is divided into several sections:

- Video Feeds:** Four live video streams are shown in a 2x2 grid. The top-left shows a street scene with a yellow bus and pedestrians. The top-right shows a white car. The bottom-left shows a street scene with a person in a yellow vest. The bottom-right shows the front view of a white Mitsubishi bus.
- Map:** A map interface on the right side, showing a location with a 200m scale bar. It includes navigation controls like zoom in (+), zoom out (-), and a compass. The map is labeled '地图' (Map) and '卫星' (Satellite).
- Timeline and Playback:** A timeline at the bottom left shows video segments with timestamps: '1X 2015-05-18 08:13:53--08:16:05', '2015-05-18 08:14:10', and '00:17/02:12'. Playback controls (play, stop, previous, next, full screen) are visible.
- Vehicle Status Graph:** A line graph at the bottom right plots data over a 24-hour period (00:00 to 24:00). The y-axis ranges from 1 to 8. The graph shows a highly fluctuating red line, indicating sensor data over time.
- Navigation Panel:** On the left side of the graph, there is a menu with expandable sections:
  - Vehicle Status
    - Speed
    - Acceleration
    - Sensor (selected)
    - IO
    - Event
  - Device Status
  - CAN-BUS

At the bottom right of the graph area, there is a 'CH' button and a small icon.

**Vehicle with device for test in AC Coach  
Lahore to Sadiq Abad near motorway @ 86Km/h**

The screenshot shows a software interface for vehicle monitoring. At the top, there are navigation icons for Map, Video, Track, Record, and Other. The main area features a Google Map of Lahore, Pakistan, with a location marker for 'ALI01' at Katar Bund Road. A pop-up window displays the following information:

- ALI01
- Time: 2013-11-02 21:59:50
- Speed: 86.00 km/h(South)
- Position: Katar Bund Road, Lahore, Pakistan
- Alarm: Status: ACC ON, SD Card Exist, 3G Signal Normal
- Video Intercom Monitor Snapshot More

Below the map, there is a status bar showing 'Monitor: 1', 'Online: 1', 'Alarm: 0', 'Offline: 0', and 'Idling: 0'. A table at the bottom provides details for the device:

Device	Positioning Time	Position	Speed	Alarm
ALI01	2013-11-02 21:59:50	Katar Bund Road, Lahore, Pakistan	86.00 km/h(South)	

On the right side, there are three video camera feeds showing the interior of the vehicle. At the bottom right, there is a play button icon and the text 'ALI01 - CH4'.

**IOS & Android**

The screenshot shows the IOS mobile application interface. At the top, it displays the status bar with 'AIS 3G', '14:57', and '79%' battery. The app title is 'IOS' with a search bar labeled 'Search Online'. The main display is divided into four camera channels:

- Sida1 - CH1: Interior view of the vehicle's front seat and dashboard.
- Sida1 - CH2: Exterior view of a large, curved concrete structure.
- Sida1 - CH3: Exterior view of a large white cylindrical tank.
- Sida1 - CH4: Exterior view of a large white cylindrical tank from a different angle.

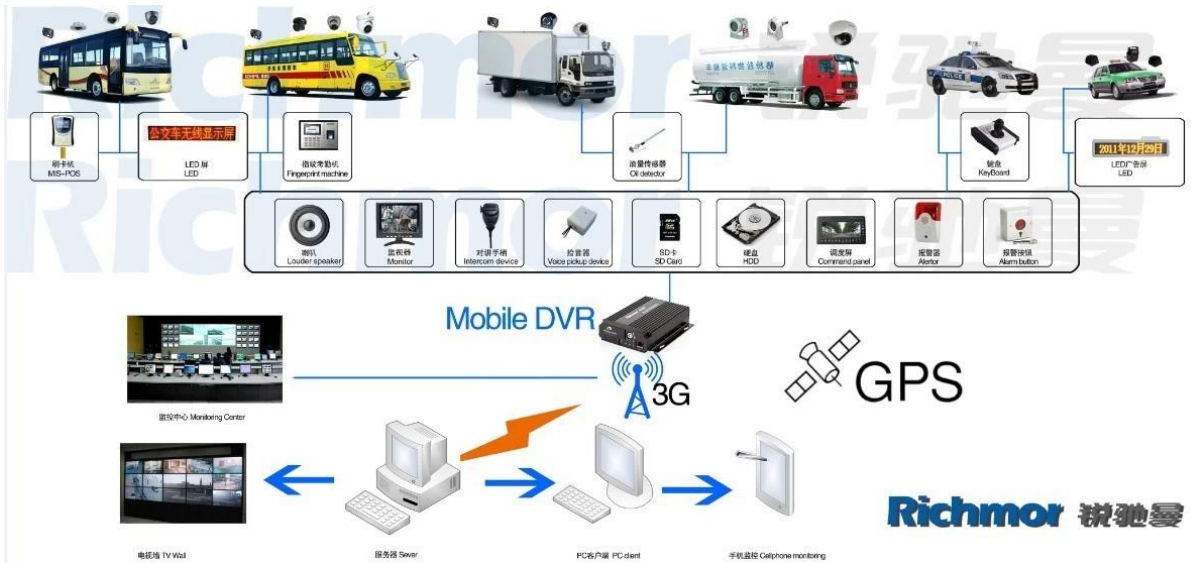

At the bottom, there is a navigation bar with icons for Terminal, Map, Video, Track, and Setting.

The screenshot shows the Android mobile application interface. At the top, it displays the status bar with '9:54AM', '0.51K/s', and '28%' battery. The app title is 'AndroidMonitor' with a 'Terminal' button. The main display shows a satellite map of a region. A pop-up window displays the following information:

- 80029
- Status: Idle
- Video

At the bottom, there is a navigation bar with icons for Terminal, Map, Video, and Setting.
