

出租车监控解决方案 TAXI SOLUTION

产品特点

1. 支持SD卡存储
2. 支持3G/GPS/WIFI/UPS
3. 支持报警
4. 支持语音
5. 支持SD卡
6. 支持SD卡
7. 支持recovery
8. 支持报警

The screenshot displays a software interface for vehicle monitoring. At the top, there are 'File' and 'Video' menu options. The main area is divided into several sections:

- Video Feeds:** A 2x2 grid of live video streams. The top-left shows a street scene with a yellow bus and pedestrians. The top-right shows a silver car. The bottom-left shows a street scene with a person in a high-visibility vest. The bottom-right shows the front view of a white Mitsubishi bus.
- Map:** A map on the right side with a small video thumbnail and a timestamp '08:13:53'. It includes navigation controls like a compass and zoom in/out buttons. A scale bar indicates '200米' (200 meters).
- Timeline:** A horizontal timeline at the bottom of the video section with playback controls (play, stop, previous, next, full screen, etc.). It shows timestamps: '1X 2015-05-18 08:13:53-08:16:05', '2015-05-18 08:14:10', and '00:17/02:12'.
- Vehicle Status Panel:** A sidebar on the left with a tree view:
 - Vehicle Status
 - Speed
 - Acceleration
 - Sensor
 - ID
 - Event
 - Device Status
 - CAN-BUS
- Data Graph:** A line graph at the bottom right showing data over a 24-hour period. The x-axis is labeled from 00:00 to 24:00 in 2-hour increments. The y-axis ranges from 1 to 8. A red line fluctuates between approximately 1 and 8 throughout the day.

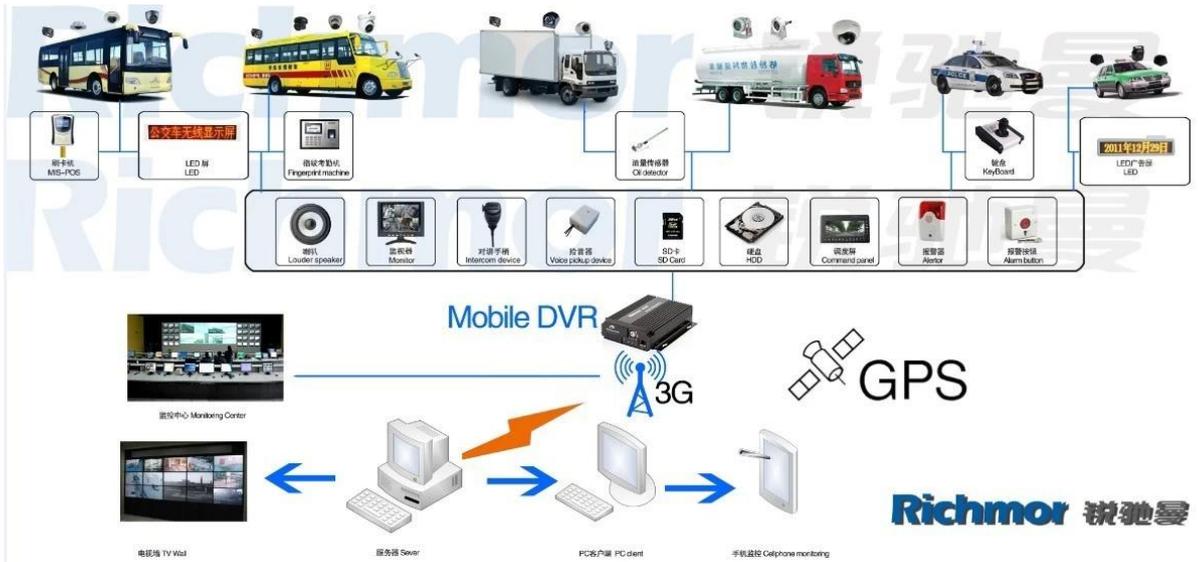

**Vehicle with device for test in AC Coach
Lahore to Sadiq Abad near motorway @ 86Km/h**

The screenshot displays a monitoring software interface. At the top, there are navigation icons for Map, Video, Track, Record, and Other. The main area features a Google Map of Lahore, Pakistan, with a location marker for 'ALI01: Katar Bund Road, Lahore, Pakistan'. A pop-up window provides details for this location: Time: 2013-11-02 21:59:50, Speed: 86.00 km/h(South), Position: Katar Bund Road, Lahore, Pakistan, Alarm: ACC ON, SD Card Exist, 3G Signal Normal, and Video Intercom Monitor Snapshot More. Below the map, a status bar shows 'Monitor: 1', 'Online: 1', 'Alarm: 0', 'Offline: 0', and 'Idling: 0'. A table lists device details for 'ALI01', including its positioning time and location. On the right side, there is a vertical stack of video feeds, with the top one showing the interior of a vehicle. At the bottom, there are navigation and control buttons.

IOS; Android

The screenshot shows the IOS mobile application interface. At the top, it displays the status bar with 'AIS 3G', the time '14:57', and '79%' battery. Below the status bar is a search bar with the text 'IOS Search Online'. The main content area is divided into four video channels: 'Sida1 - CH1' (interior view), 'Sida1 - CH2' (exterior view), 'Sida1 - CH3' (exterior view of a vehicle), and 'Sida1 - CH4' (exterior view of a vehicle). At the bottom, there is a navigation bar with icons for Terminal, Map, Video, Track, and Setting.

The screenshot shows the Android mobile application interface. At the top, it displays the status bar with '9:54AM', '0.51K/s', and '28%' battery. Below the status bar is a search bar with the text 'Android Monitor Terminal'. The main content area shows a map view with a location marker for '80029'. A pop-up window provides details for this location: Status: Idle and Video. At the bottom, there is a navigation bar with icons for Terminal, Map, Video, and Setting.
