

Full digital capacitive automobile oil level sensor, Length can be customized.

- \* Detection range: 0.05-1m

- \* Precision: level 1

- \* Low medium temperature: - 50-125 °C

- \* Power supply voltage: 12-28vdc

- \* Fixed: thread M16\*1 or flange installation, special specifications can be customized

- \* Low ground pole diameter:  $\Phi$  16
